Email Setup Instructions for Apple's Mail

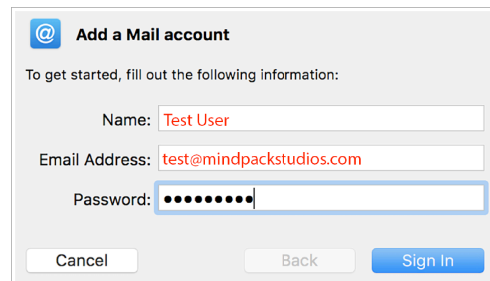

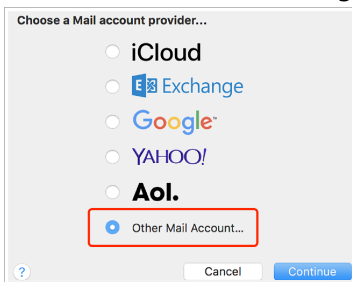

Included are the instructions for IMAP e-mail account setup in Apple's Mail application.

NOTE:

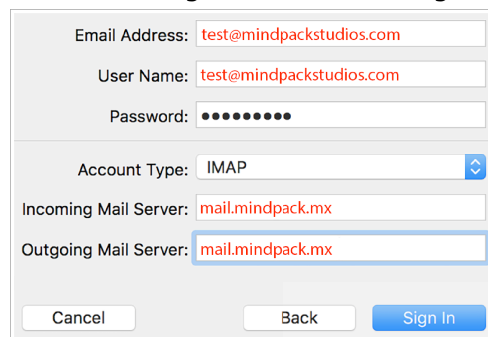

- Depending on your internet connection speed and how much previous mail you have, synchronizing may take several minutes to several hours. Mail can be used during this time without issue.

1. Add existing mail account.

- Open the Mail app then go to Mail > Add Account...
- Select Other Mail Account and click Continue
- Enter your credentials and click Sign In.

- Enter your full email address as the User Name. Be sure IMAP is selected and enter in the server hostnames provided for both the Incoming and Outgoing Mail Servers. In this example, mail.mindpack.mx is being used. Click on Sign In.

- Be sure Mail is checked and click Done.
- Click on Mailbox to see your mail folders.
