

Email Setup Instructions for iPhone Mail

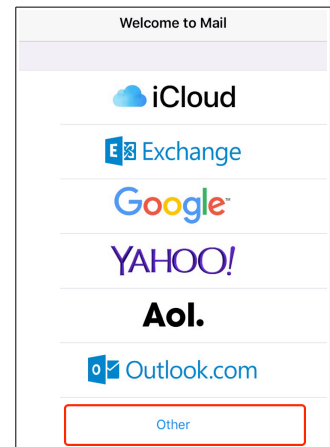

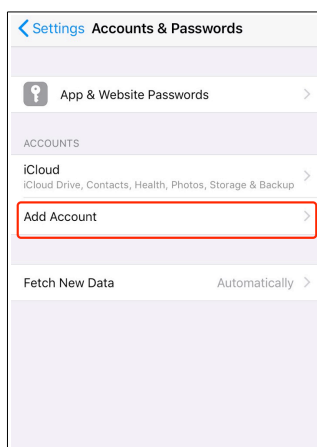

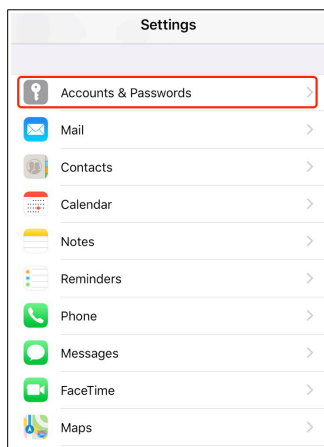

Included are the instructions for IMAP e-mail account setup in iPhone's Mail application.

NOTE:

- Depending on your internet connection speed and how much previous mail you have, synchronizing may take several minutes to several hours. Mail can be used during this time without issue.

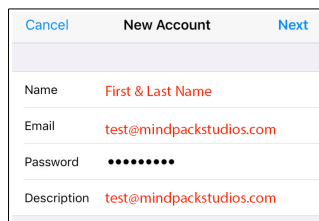

1. Add existing mail account.

A) Open Settings > Accounts & Passwords > Add Account and click on Other.

B) Click on Add Mail Account and enter your name and credentials then click Next.

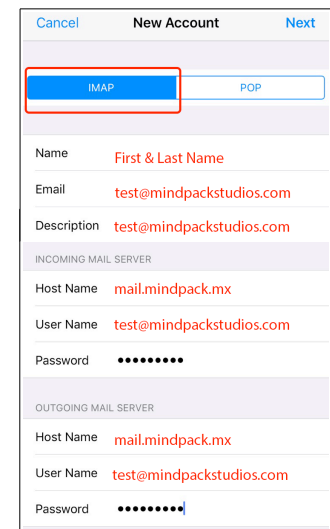

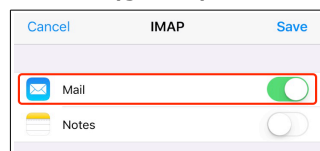

C) Be sure the IMAP tab is selected.

D) Enter the server hostname provided by Mindpack Studios for both the Incoming and Outgoing Mail Servers. In this example, mail.mindpack.mx is used.

- The username for both is your full email address.
- Enter your password in both places.

E) Mail should be selected (green), then click Save.

F) Exit from Settings and open Mail.
